George Smith, president of the Globe Central Labor council, it is charged, tore down the flag and also a flag which was behind the seat he occupied as presiding officer. Both flags had been put up by the Carpenters union of Globe. Smith's action followed a statement issued by Smith in which he denounced president Wilson. Use Cocoanut Oil For Washing Hair

If you want to keep your hair in condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsifled coconnut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy Inther, and cleanses the hair and scalp thoroughly. The lather ringes out easily, and removes every particle of dust, dirt, dandruff and excessive oil, The hair dries quickly and evenly, and it leaves it fine and silky bright, fluffy and easy to manage.

You can get multifled coconant cit at most any drug store. It is very cleap, and a few ounces is enough to last everyone in the family for mouths.
